

The "Baby Welcome Package" of the City of Dessau-Roßlau

A very special welcome for the families of our city!

A new family member is born or is already there. Families want a good start in life for their baby. The first days after the birth, the first direct eye contact, the first word...- these special moments make parents proud and happy.

The city of Dessau-Roßlau gives families to the birth of the child the "Baby Welcome Package". The package contains:

- A benefit of 125 €.
- An information conversation about offers for families with children from 0–3 years.

Parents can apply for the package. The children have to live with their parents in Dessau-Roßlau and have not yet completed their first year of life.

You will also get a welcome bag with a small gift for your child and for you, a development calendar "Your child discovers the world", a family brochure and a family city map.

Are you interested in the „Baby Welcome Package“?

Then please call the Early Intervention Centre before. You can make an appointment with Mrs. Schilling on 0340 2041282.

The birth certificate of the child and the applicant parent's identity card are required at the appointment.

You can also get the baby welcome package at your home. With the birth certificate you get a welcome card from the registry office. On this welcome card you can write your wish for a welcome visit, including your telephone number. Ms Schilling will then call you and make an appointment.

(Note on social data protection: If you send the welcome card to the Early Intervention Centre, please lock the card with an adhesive strip).
